

## Safety information for the return of already employed micro annular gear pumps and components

### General information

The operator carries the responsibility for health and safety of his/her employees. The responsibility extends also to employees not belonging to the company that have a direct contact with the micro annular gear pump and its components during repair or maintenance works. The nature of media (liquids) coming into contact with the micro annular gear pump and its components must be specified in the corresponding declaration form.

### Declaration of liquids in contact with the micro annular gear pump

The staff performing the repair or maintenance works must be informed about the condition of the micro annular gear pump before starting any work on the device. The »Declaration of media in contact with the micro annular gear pump« should be filled in for this purpose.

The declaration should be sent directly to the supplier or to the company designated by the supplier. A second copy of the declaration must be attached to the shipment documents.

### Shipment

The following instructions should be observed for the shipment of the micro annular gear pump.

- drain any remaining liquid from the pump
- flush the pump with an adapted flushing liquid
- remove the filter elements from the integrated or loosely delivered filters
- all the openings should be air-tight plugged
- return the pump in the original packing

---

#### Address

# Declaration of media in contact with the micro annular gear pump and its components

## Type of the device

Pump type/serial number/article: .....

Operating hours/running time: .....

Bill of delivery-number and delivery date: .....

Reason of the return: .....

.....  
.....  
.....

## Contact with media (liquids)

The micro annular gear pump has entered into contact with: .....

.....

and has been cleansed with: .....

.....

The safety specification of the liquid has been attached (Yes / No): .....  
or is available on the following web site: www.....
