

MoDoS Slim

Modular Dosing System – MoDoS®

Components

- rigid aluminum framework, profile 30 x 30 mm
- micro annular gear pump mzs-6355 / mzs-7255
- filter F-SW2-T / F-MI2-T for easy maintenance
- 3-way filling ball valve
- Coriolis flow meter with integrated controller
- closed loop flow control
- pressure relief valve
- check valve
- manometer
- drip tray
- push button display for local control
- manual switch over from external set point control to local push button control
- set point 0-10 V or 4-20 mA and RS-232
- pump interface RS-232
- inlet isolation ball valve
- tubing OD 1/8"
- dimensions: 250 x 300 x 450 mm
