

## Fiche produit

### mzr-Touch Control - Commandes

#### Description

The control module mzr-Touch Control provides users in the laboratory and production area with a simple yet versatile dosing unit for precise delivery and dosing in the low-flow range. The combined drive and control unit allows the operation of micro annular gear pumps with the aid of touch operation as well as an external analog interface (0-10 V). The high-quality die-cast aluminum housing is powder coated and offers reliable protection of the operating and functional elements. The control module is supplied with 24 V DC via supplied power supply unit.
